

Primary Student Survey - opening

(1.2)

This survey is being conducted by Canterbury Christ Church University. We are doing research to help teachers to create new lessons. We hope to get lots of ideas from lots of students. We will ask you if we can include your survey in our research. Your answers will not affect your grades. If you don't wish to answer a question, that's fine, skip it. We ask you for your name to help us match your first survey with your second survey. We never use real names when we write about our research.
